

# UniLock Riser Cabinet for Docking Badge-Tap Solutions

RFIDeas badge reader

Pull-out drawer

## **Model #DS-UniLock2.0-EL-CON**

### **Item #15808**

- Secure platform to protect mobile devices from theft and control access
- Badge tap authenticates and records access, just like a door lock, releasing glide drawer so you can access phones\*
- Works with third party software, such as GroundControl's check-in-check-out feature for iOS devices
- Made of 16 gauge white, powder-coated steel; easy to clean
- Includes robust Southco electronic lock/latch (R4-EM-983-150)
- RFIDeas USB badge reader and Southco USB controller; pre-installed (your access control vendor can integrate to Southco standard)\* Our badge readers now support iClass SeoS badge types (a higher security level badge) and the reader is backward compatible with standard HID older card types as well.
- Equipped with mechanical key override
- Secures to desk or counter; optional mobile base available
- Can be stacked (modular) two-high on desk or mobile base
- Weight: 25 pounds
- Dimensions: 16"W x 15.25"D x 10.8"H
- UniDock™ smart dock for 16 or 24 devices sold separately
- Proudly made in the USA°

Mac mini not included

\*Integration with your existing access control software required. Your existing vendor should be able to integrate to our electronic latch.
